IDEALIST

CWG-D-7/1
13 March 1964

MEMORANDUM FOR: COMOR Photo Working Group
SUBJECT: Tactical Reconnaissance in Indochina

1. Attachment I is an IBM listing of the tactical targets in Indochina for use in both SAC U-2 and IDEALIST U-2 reconnaissance. The listing is presented in three sections, which are organized according to COMOR number, geographic coordinate (latitude order), and target name (alphabetic by country). All targets in which COMUSMACV and other elements of the intelligence community have expressed interest as of 12 March 1964 are included. The intention is to update the lists by adding new targets as interest in them is expressed.
2. Attachment I also explains the country codes used in the IBM runs, the target category codes, and the essential elements of information desired. The latter are listed A thru H and can be used in requesting photo interpretation of the targets.
3. Attachment II is a map of Indochina on which the targets are depicted. The map will also be updated as new targets are added.
4. Recipients are requested to notify the undersigned of additions or corrections so that the targeting system may be kept responsive to current requirements.
